Variational problems, PDEs and applications

Università di Pisa and Scuola Normale Superiore, January 17 - 19, 2019

SCUOLA
NORMALE
SUPERIORE

Aims and scopes:

The research fields of variational problems and of partial differential equations are very large and include the analysis of several mathematical models, going from mathematical physics, to economy, from engineering to biology. The workshop aims to explore the analytical, geometrical and numerical issues arising from several variational and differential problems, as well as the possible applications of the theoretical results.

Organizing and Scientific Committee:

Luigi C. Berselli, Giuseppe Buttazzo, Matteo Novaga, Andrea Malchiodi

Venue:

Aula Magna, Dipartimento di Matematica, Università di Pisa ([map](#))

Timetable:

Thursday (Jan 17)	
15:15-15:30	Opening
15:30-16:20	<u>L. Ambrosio</u>
16:20-17:10	<u>A. Figalli</u>
17:10-18:00	<u>S. Bartels</u>

	Friday (Jan 18)	Saturday (Jan 19)
--	-----------------	-------------------

9:30-10:20	F. Flandoli	G. Wang
10:20-11:00	A. Pratelli	G. Alberti
11:00-11:40	Coffee	Coffee
11:40-12:30	S. Masnou	S. Conti
12:30-14:00	Lunch	Lunch
15:00-15:50	N. Große	E. Chiodaroli
15:50-16:40	G. Bellettini	L. De Luca
16:40-17:30	M. Ponsiglione	A. Malchiodi

Lunch:

Mensa - Scuola Normale Superiore, Via Consoli del mare 13 ([map](#)) during breaks 12:30-14:00.
