

CYRILL B. MURATOV

Professor
 Department of Mathematical Sciences
 New Jersey Institute of Technology
 University Heights, Newark, NJ 07102 USA
 Phone: (973) 596-5833, Fax: (973) 596-5591
 Email: muratov@njit.edu

EDUCATION

- **Ph. D. in Physics**
 Dissertation: "Theory of domain patterns in systems with long-range interactions of Coulombic type," Boston University, Boston, MA, January 1998
- **M. S. in Applied Mathematics and Physics, with Honors**
 Moscow Institute of Physics and Technology, Department of General and Applied Physics, Moscow, Russia, June 1993

EMPLOYMENT

- **Professor**, Department of Mathematical Sciences, New Jersey Institute of Technology, Summer 2014 – present
- **Associate Professor**, Department of Mathematical Sciences, New Jersey Institute of Technology, Summer 2006 – Spring 2014
- **Assistant Professor**, Department of Mathematical Sciences, New Jersey Institute of Technology, Summer 2001 – Spring 2006
- **Visiting Assistant Professor**, Department of Mathematical Sciences, New Jersey Institute of Technology, Fall 1999 – Spring 2001
- **Visiting Member**, Courant Institute of Mathematical Sciences, Summer 1997 – Fall 1999

VISITING POSITIONS

- CNRS, Laboratoire de Physique et Chimie des Nano-objets, INSA, Toulouse: Summer 2019
- Isaac Newton Institute, University of Cambridge: Spring 2019
- Courant Institute of Mathematical Sciences: Spring 2008, Spring 2010, Spring 2012, Fall 2014, Spring 2015
- Max Planck Institute for Mathematics in the Sciences: Summer 2014
- NASA Ames Research Center: Summer 2008, Winter 2009, Winter 2015
- University of Pisa: Fall 2007
- *Short-term visits*: Basque Center for Applied Mathematics; University of Bonn; Bristol University; Polytechnic University of Catalonia; UCSB; UCLA; University of Chicago; University of Connecticut; Technical University of Eindhoven; Fields Institute, Toronto; Lorentz Center, Leiden; University of Marseille; Max Planck Institute, Leipzig; Mauro Picone Center for Analysis and Applications, Rome; Mittag-Leffler Institute, Stockholm; National Autonomous University of Mexico; University of Minnesota; University of Paris XI; University of Pisa; Institute Henri Poincaré, Paris; Princeton University; University of Rome III; Stanford University; Swansea University; University of Padua; UT Austin; University of Tokyo; University of Verona

RESEARCH INTERESTS

- Calculus of variations, analysis of nonlinear PDEs, mathematical physics
- Pattern formation and front propagation phenomena
- Reaction-diffusion equations and their applications to embryonic development
- Stochastic analysis of rare events
- Multiphysics modeling

GRANTS AND AWARDS

- *Coherent structures in nanomagnetism*, DMS-1908709, NSF, July 2019 – June 2022, \$354,300.
- *Magnetization dynamics at nanoscale*, DMS-1614948, NSF, July 2016 – June 2020, \$360,000.
- *A spectral mass gauging concept for large-scale cryogenic propellant tanks*, NASA Grant NNX15AT36A, September, 2015 – May, 2016, \$50,000.
- *Modeling and numerical study of explosive boiling in well wetting fluids under microgravity*, Universities Space Research Association, subcontract under NASA Grant NNX12AK33A, April 2014 – September 2014, \$50,000.
- *Deterministic and stochastic magnetization dynamics in thin ferromagnetic films and devices*, DMS-1313687, NSF, July 2013 – June 2016, \$375,577.
- *Strongly non-equilibrium phenomena at H₂ and O₂ phase boundaries*, NASA Grant NNX12AF82G, February 2012 – September 2013, \$199,000.
- *Collaborative Research: Dynamics of Morphogen Gradients*, DMS-1119724, NSF, October 2011 – 2014, \$249,999.
- *Upper stage engine uncontrollable failure analysis*, NASA Grant NNX10AC65G, January – December, 2010, \$155,000.
- *Winding domain walls in thin ferromagnetic films*, DMS-0908279, NSF, July 2009 – 2014, \$370,957.
- *Collaborative Research: Analysis of spatiotemporal signal processing in developmental patterning*, DMS-0718027, NSF, July 2007 – 2010, \$155,000.
- *Collaborative Research: Multiscale analysis of epithelial patterning: modeling and experiments*, NIH R01 GM076690, July 2005 – 2008, \$204,379.
- *Collaborative research: modeling and computational analysis of cell communication in Drosophila oogenesis*, DMS-0211864, NSF, August 2002 – 2005, \$104,378.
- Plenary lecture, SIAM Conference on Mathematical Aspects of Materials Science, May 2021.
- Visiting Fellowship, LABEX NEXT “Nano, Mesures EXtrêmes et Théorie”, INSA, Toulouse, France, Summer 2019.
- *Distinguished Research Award*, College of Science and Liberal Arts, NJIT, April 2018.
- Visiting Fellowship, Max Planck Institute for Mathematics in the Sciences, Germany, Summer 2014.
- Kavli Frontiers of Science symposium speaker, National Academy of Sciences, US, April 2011.
- Visiting Fellowships, Istituto Nazionale di Alta Matematica Francesco Severi, Italy, Summers 2005, 2006, 2011, 2017.
- Visiting Fellowship, Gruppo Nazionale per l’Analisi Matematica, la Probabilità e le loro Applicazioni, Italy, July 2007.

SELECTED RECENT PRESENTATIONS

- Invited talk, Applied Math Seminar, Courant Institute of Mathematical Sciences, February 2015.
- Invited talk, Applied Math Seminar, University of Bristol, March 2015.
- Invited talk, PDE and Differential Geometry Seminar, University of Connecticut, April 2015.
- Invited talk, Materials Working Group Seminar, Courant Institute of Mathematical Sciences, April 2015.
- Invited talk, PDE Seminar, University of Pisa, July 2015.
- Invited talk, Applied Mathematics Colloquium, Colorado State University, October 2015.
- Invited talk, Applied Mathematics Colloquium, NJIT, November 2015.
- Minisymposium talks, SIAM Conference on PDEs, Phoenix, AZ, December 2015.
- Invited talk, NYU-Oxford Workshop on Mathematical Models of Defects and Patterns, New York, NY, January 2016.

- Invited talk, XXVI Convegno Nazionale di Calcolo delle Variazioni, Levico Terme, Italy, January 2016.
- Invited talk, PDE seminar, UT Austin, February 2016.
- Invited talk, PIMS Workshop on Non-Local Variational Problems and PDEs, Vancouver, Canada, June 2016.
- Invited talk, CRM Workshop on Partial Order in Materials, Montreal, Canada, June 2016.
- Invited talk, Applied Mathematics Seminar, University of Swansea, UK, July 2016.
- Invited talk, PDE Seminar, University of Maryland, October 2016.
- Invited talk, PDE Seminar, University of Pisa, March 2017.
- Invited talk, The 2nd International Conference on "Nanomagnetism and Spintronics", San Sebastian, Spain, June 2017.
- Invited talk, Workshop on Curves and Networks in Geometric Analysis, Centro De Giorgi, Pisa, Italy, June 2017.
- Invited talk, Mathematical Physics Seminar, University of Rome III, July 2017.
- Minisymposium talk, 2nd Mathematical Congress of the Americas, Montreal, Canada, July 2017
- Invited talk, Materials Working Group, Courant Institute of Mathematical Sciences, October, 2017.
- Invited talk, Applied Math Colloquium, Princeton University, December 2017.
- Minisymposium talks, SIAM Conference on Analysis of PDEs, Baltimore, MD, December 2017.
- Invited talk, Workshop on "Topics in the Calculus of Variations: Recent Advances and New Trends", BIRS, Canada, May 2018.
- Invited talk, PDE Seminar, University of Pisa, September 2018.
- Invited talk, Analysis, Logic and Physics Seminar, Virginia Commonwealth University, November 2018.
- Invited talk, Workshop on "Optimal design of complex materials", Isaac Newton Institute, Cambridge, January 2019.
- Invited talk, Workshop on "Mathematical Models for Pattern Formation", Carnegie Mellon University, March 2019.
- Invited talk, AMS Sectional Meeting, Special Session on Modeling and Qualitative Study of PDEs from Materials Science and Geometry, Hartford, CT, April 2019.
- Invited talk, 12th International Symposium on Hysteresis Modeling and Micromagnetics, Heraklion, Greece, May 2019.
- Invited talk, LPCNO seminar, INSA, Toulouse, France, July 2019.
- Minisymposium talks, The 9th International Congress on Industrial and Applied Mathematics, Valencia, Spain, July 2019.
- Invited talk, Workshop on "PDEs and Applications to Life Sciences", Penn State, October 2019.
- Invited talk, Workshop on "Modeling of Crystalline Interfaces and Thin Film Structures", The Erwin Schrödinger International Institute for Mathematics and Physics, November 2019.

- Invited talk, Mathematical Physics Seminar, Rutgers University, February 2020.
- Invited talk, Applied Mathematics Seminar, University of Pisa, May 2020.
- Invited talk, Workshop on “Calculus of Variations”, Mathematisches Forschungsinstitut Oberwolfach, August 2020.
- Invited talk, Center for Nonlinear Analysis Seminar, Carnegie Mellon University, October 2020.
- Invited talk, Conference on “Mathematical and Computational Materials Science”, IMSI, University of Chicago, February 2021.
- Invited talk, Caltech and UCLA joint analysis seminar, March 2021.
